

Comprised of stand-alone guest chairs, two- and three-seat pre-configured combinations and reconfigurable tandem units, Sign Tandem from **Arcadia** is a hallmark of versatility and enduring style. Offered in three seat sizes, including a bariatric width, all models feature a passive-flex back for enhanced comfort, a host of replaceable components, and an assortment of wood, metal and Corian finish selections. Sign is an ideal choice for healthcare, corporate, higher education markets and more.

**Mannington Commercial** has expanded the Vivendi Collection with a new line of carpeting. Available in both modular and broadloom, the collection features patterns designed around Vivendi's core design values of 'luxury,' 'healthy' and 'calm'; a palette of 14 colors coordinate with the collection's existing hard surfaces. Constructed of Invista's new Antron Lumena 895-denier solution-dyed fiber, the line carries a lifetime warranty for wick back staining, moisture resistance, delamination, as well as bleaching and staining.

Aragon from **Arc-Com** is a contemporary, geometric wallcovering that sets up a staggered, vertical woven metal design. This new pattern is available in an array of 20 glowing colorations, including frosted pearlized tones, rich metallics, and exotic and bronzed finishes. Aragon is offered in a Type II, 20-ounce recycled construction as part of Arc-Com's eco-tex® Wall Surfaces collection. With 10 percent recycled content and low VOCs, Aragon is eligible to contribute toward LEED credits.

The Fast Table by **Leland** meets the need for a clean solution to multi-table configuration in commercial, dining and training environments. Intuitive features like a pivoting X-shaped base and easy-to-use connectors allow everyday users to quickly and clearly reconfigure the product. In addition, a wide variety of top shapes are accommodated with just two base sizes. Fast is made of steel manufactured using at least 40 percent recycled content, and is 100 percent recyclable.
