1. Adapted from their 2011 award-winning Ebb wood bench, **Leland International** introduces their new Ebb Mobile for the workstation environment. Designed by Mark Gabbetas, the simple yet striking mobile pedestal mixes form with function with three versions: open vessel, concealed bin and drawer, and bin and file combination.

2. Both comfortable and versatile, **Arcadia's** Co-op Booth is designed to create privacy within open public and corporate environments. Customizable for each space and desired aesthetic, the semi-private enclave can be built into new and existing interiors to meet the needs of the users.

3. Proving you can always improve on a great idea, **SitOnIt** has upholstered their Amplify mesh chair—2014 winner of a Gold Award for Design Excellence (ADEX). Featuring an adjustable Dynamic Lumbar within the sleek, curved backing, scroll arm available in both repositionable and fixed, and a soft, padded seat. Customizable with a variety of frame and upholstery colors and materials.
