THIRTY  
NINE  
**STOOLS**

The Rapson® Thirty-Nine Collection features a lounge chair, guest chair, benches, and stools built to endure as beautifully as the architect who conceived them. Through collaboration between Leland International and the Rapson family, these designs capture the personality and spirit of Rapson's original concepts. Each piece of furniture is indelibly branded with the designer's signature, certifying the furniture's authenticity.

## FEATURES

The graphic profile of the Rapson Thirty-Nine Stool is lyric and playful while the frontal view is ordered and clean. This design style reflects a planar form prevalent in mid-century design.

The Rapson Thirty-Nine Stool is offered in natural walnut or ash veneer.

When specifying for dining, either the counter or bar height stool can be paired with the Rapson Thirty-Nine Bench accommodating the need for a dining seat height.

The refined upholstery detailing on the seat offers a high level of user comfort. The bench seat is available with an optional wood button finished to match the base veneer.
